The HTML has been organized as follows:

**<!DOCTYPE html**> : Declares the document as an HTML5.
**<html lang**='en'> : Language of the document (English).

## HEAD

**<meta charset**='UTF-8'> : Determines which character set will be used.
**<title**> : title of the page, Codepen homepage in this case.
**<link**> : imported fonts to be used in CSS.
**<script**> : imported script to be able to use the FontAwesome icons.
**<link**> : CSS stylesheets which contain the styles to be applied to the page.

## BODY

The **<body**> consists of 3 main divisions: **<div class**="header">, **<div class**="main-section"> and **<div class**="footer">, organized as explained below.

**<div class**="header"> contains:

- The **CodePen logo**.
- The **explore-navbar <div**> which contains the **Explore** heading **<h1></h1**> and the **"navbar" <div**> containing all the links from this section. This includes the **Spark link**, for which a **<span**> has been created, so that it can be styled differently, as well as the icon.
- The **"header-buttons" <div**> containing all the buttons in the top-left section of the page (each whith its corresponding text), as well as the **"search-icon" <i></i**>

**<div class**="main-section"> contains two main divisions:

1) The **"content-section-left" <div**> which contains:

- The **"paragraph-one" <div**> including the corresponding paragraph tag **<p></p**> with its text, some of which has been styled directly to make it bold **<b></b**>.
- The **"paragraph-two" <div**> including the text and its corresponding paragraph tag **<p></p**>.
- The **"content-section-buttons"** <div> which contains the **"green-btn" <div**> and **"black-btn" <div**>, each with the corresponding text for each button.

   2) The **"content-section-right" <div**> which includes:

- The **"projets-img-wrapper" <div>** which contains the **"projects-heading" <div>** for which two **<span>** tags have been used so that both parts of the text can be styles differently. It also contains the **"main-right-img <div>** which has the image displayed on the right of the midsection of the page.

**<div class="footer">** contains:

- The **"footer-wrapper" <div>** which contains the **buttons <button>** from the footer of the page. Each button includes two **<span>** tags so that different parts of the text can be styled differently. Some styles have been applied directly to some of the text to make it bold **<b></b>**.
